

Masterplan

The Bluewattle lifestyle is for everyone...

Bluewattle will comprise 1,300 residential lots set within 98 hectares of abundant green corridors, landscaped spaces and parklands. The masterplan will offer a diverse mix of quality houses on a variety of block sizes, including traditional house, courtyard, villa and terrace lots.

Both the general public and Defence members and their families will make Bluewattle home. Around 30% will be made up of Defence houses, which will be integrated throughout the development. The remaining lots will be sold to the general public.

Residents will enjoy a safe, walkable community and a strong neighbourhood spirit within an established area close to local amenities, schools and leisure facilities.
