

# DHA

## DHA'S ROLE

For over 30 years, Defence Housing Australia (DHA) has provided housing and related services to support Defence members and their families. We build, buy and lease homes across the country and manage a portfolio of more than 19,000 properties. We currently have a residential development program valued at approximately \$3.6 billion.

We have a long-term commitment to the communities we build and strive to set the benchmark in innovation and sustainable design. Our developments go beyond bricks and mortar—we build healthy, vibrant communities for Defence families. Properties that are surplus to our needs are sold on the open market to everyday homebuyers and investors.
