BLUEWATTLE'S SALES & MARKETING AGENT

Knight Frank is perhaps best known for our comprehensive range of residential property services.

We began as specialists in residential sales in the United Kingdom, and have maintained our pre-eminence in this area. Knight Frank has introduced residential services to Australia, complementing and working with our International residential office network with great success.

Through our international network our residential clients are assured of the best advice from professionals who have a profound understanding of the market both locally and internationally.

Our clients have access to our up-to-date national, regional and local intelligence on residential property markets. This, coupled with our experience and expertise, helps our clients capture, create and retain value in all of their property dealings.
