## **BY TROPICAL HOMES**

---

Located next to the Ross River, the vision for Bluewattle is a thriving masterplanned development comprising 1,300 residential homes that integrate into the existing Rasmussen community.

Bluewattle and Tropical Homes have partnered to launch the Bluewattle Inspire Collection – a series of modern, low maintenance homes designed for people seeking more from life than endless household chores.

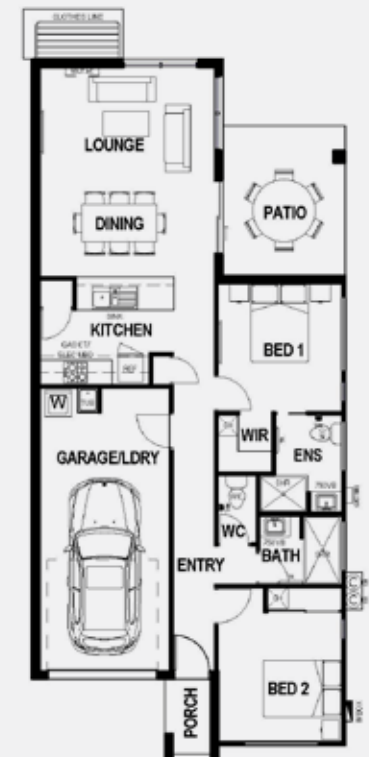

Tropical Homes have set out to make the option of a brand new home more accessible to young couples, single professionals and retirees. The result is a series of well-considered, architect-designed homes that make the most of their proximity to the beautiful Ross River and Bluewattle's abundant parks and green corridors.
